To whom it may concern,

WEG Equipamentos Elétricos is committed to compliance with Order No. 32, 2016 on the Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products (China RoHS), in accordance with the following standards:

- GB/T 26572-2011: Requirements on concentration limits for certain restricted substances in electrical and electronic products;
- SJ/T 11364-2014: Marking for the restricted use of hazardous substances in electronic and electrical products; and
- SJ/Z 11388-2009: General guidelines of environment-friendly use period of electronic information products.

This legislation establishes requirements for manufacturers to ensure that electrical and electronic products placed on the Chinese market comply with the Order and applicable standards. This is achieved by ensuring that the products do not contain hazardous substances exceeding the maximum permitted concentration values by weight in homogeneous materials.

According to the best of our knowledge and based on information made available to us by our suppliers, the products listed below comply with the requirements of China RoHS.

Product list:

Electric motors manufactured in Brazil by Motors Division.

If further information is required, please feel free to contact us.

本表格依据SJ/T 11364的规定编制 This table is prepared in accordance with the provisions of SJ/T 11364. O : 表示该有害物质在该部件所有均质材料中的含量均在 GB/T 26572规定的限量要求以下。 O: Indicates that said hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement of GB/T 26572 (or does not content). X : 表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T 26572规定的限量要求。 X: Indicates that said hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement of GB/T 26572. 重要提示：所有打“X”的项目都在限用物质应用例外清单中，这意味着现有技术需要这些元素才能正常工作，并且符合中国RoHS。 所有部件都在限用物质应用例外清单中 Important: All the items marked with “X” are in the Exemption list, it means the present technologies need these elements to work properly and the product is in compliance with China-RoHS. All the components comply with the Exemption list limits.						

This table is about electric motors designed for use with a voltage rating not exceeding 1000 volts for alternating current and 1500 volts for direct current manufactured in Brazil by Motors Division. After end-of-life the electric motors should be sent to recycling process, because all the metal and plastic parts, cables and contactors can be recycled.
