

# W-CAR MASKING LIQUID

**PRODUCT INFORMATION:** Colorless liquid used to protect surfaces against the mist coming from painting application that remains in the air during the painting processes. After application, a thin protection layer is formed and can be easily removed with water.

**RECOMMENDED USE:** Recommended for application on vehicles to protect areas from the mist of other paint applications. It can also be used over glasses, plastics and chromes.

**TECHNICAL PROCEDURES:**

**Surface Preparation**

Remove dust and dirt from the vehicle with help of compressed air or a clean flannel and be sure the vehicle is dry before applying W-CAR MASKING LIQUID. Paint and clear coat must be totally cured.

**Removal**

For removing the product, rinse the car and wait a few minutes for product dissolution. Next, wash the car normally with water and neutral detergent removing all masking liquid together with the painting mist from the surface.

**Application Performance**

Pressure and size changing on the nozzles may be necessary to improve spraying properties. Before application, be sure that all equipment and its respective components are cleaned and in best conditions.

Drying time may vary according to temperature and thickness of the applied product.

Do not apply the product under adverse conditions as well as relative air humidity above 85%, because it might occur appearance and color changings. Do not apply the product on condensed surfaces.

**SAFETY PRECAUTIONS:**

Before handling this product is mandatory a careful reading of all information contained in the Material Safety and Data Sheet (MSDS) of the product.

Further information can be obtained by consulting the Technical Department by phone or e-mail specified in the end of this Data Sheet.
