

1. PRODUCT AND COMPANY IDENTIFICATION

Product name : POLITHERM 16 R SM PINK 81992 BR
Code : 15193700
Main recommended uses : Electrostatic powder paint for surface coating.
Address : Rodovia BR 280 - km 50
CEP 89270-000, Guaramirim - SC

Telephone : +55 47 3276-4000
Emergency telephone number : 0800 720 8000
E-mail / site : tintas@weg.net | www.weg.net

2. HAZARD IDENTIFICATION

Mixture classification

Serious eye damage/eye irritation : Category 1
Skin sensitization : Category 1
Germ cell mutagenicity : Category 1B
Specific target organ toxicity - Repeated exposure : Category 2

Classification according to NBR 14725-2/2019

Labelling Elements

Warning phrase : Danger

PAUMAR S.A. INDÚSTRIA E COMÉRCIO – GRUPO WEG

Rua Dr. Ulisses Guimarães, 918 – 09372-050 – Mauá – SP – Fone: + 55 (11) 4547-6100
Rodovia Br 280 – Km 50, 6.918 – Bloco A – 89270-000 – Guaramirim – SC – Fone: + 55 (47) 3276-4000
Rua Via VII, 314 – 54590-000 – Cabo de Santo Agostinho – PE – Fone: + 55 (81) 3512-3000
EMERGÊNCIA: +55 0800 720 8000 – E-mail: tintas@weg.net - www.weg.net

Hazard phrases : H318 Causes serious eye damage.
H317 May cause an allergic skin reaction.
H340 May cause genetic defects.
H373 May cause damage to organs through prolonged or repeated exposure.

Caution Phrases

:

Prevention:

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P260 Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.

P264 Wash thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

Reaction:

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

P308+P313 IF exposed or concerned: Call a doctor.

P310 Immediately call a POISON CENTER/doctor.

P333+P313 If skin irritation or a rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

Storage:

P405 Store locked up.

Treatment and disposal of waste:

P501 Dispose of contents/container as chapter 13 of the MSDS.

Other hazard

:

The finely dispersed particles form explosive mixtures in air, in the presence of sparks. Burning forms a thick black smoke. Inhalation of dangerous products of decomposition may cause serious damage to health.

3. COMPOSITION AND INFORMATION ABOUT THE INGREDIENTS

Product type: : Mixture

Ingredients that contribute to danger:

| Product name | CAS No. | Risck classification | Concentration [%] |
|--------------------------|-----------|--|-------------------|
| TRIGLYCIDYL ISOCYANURATE | 2451-62-9 | Acute toxicity Ingestion, Category 3 Acute toxicity Inhalation, Category 3 Skin sensitization, Category 1 Specific target organ toxicity - Repeated exposure, Category 2 Hazardous to the aquatic environment - Cronic, Category 3 Germ cell mutagenicity, Category 1B Serious eye damage/eye irritation, Category 1 | >= 1 - < 5 |

4. FIRST AID MEASURES

- Inhalation** : Take the victim to fresh air, keeping them rested and warm. If breathing is irregular or has stopped, apply artificial respiration. Do not give anything orally. Seek medical assistance immediately, bringing the product label whenever possible.
- Contact with the skin** : Remove all contaminated clothing immediately. Wash affected area with plenty of soap and water.
- Contact with the eyes** : Remove contact lenses, if wearing any. Flush the eyes with running water for at least 15 minutes, holding the eyelids apart. Seek medical assistance immediately, bringing the product label with you.
- Ingestion** : Do not provoke vomiting. Consult with a doctor immediately.
- Notes for the doctor** : Treat symptomatically. Do not induce vomiting because of risk of aspiration of gastric contents into the lungs. Gastric lavage is recommended when the patient ingests large quantities of the substance.

PAUMAR S.A. INDÚSTRIA E COMÉRCIO – GRUPO WEG

Rua Dr. Ulisses Guimarães, 918 – 09372-050 – Mauá – SP – Fone: + 55 (11) 4547-6100
 Rodovia Br 280 – Km 50, 6.918 – Bloco A – 89270-000 – Guarimirim – SC – Fone: + 55 (47) 3276-4000

 EMERGÊNCIA: +55 0800 720 8000 – E-mail: tintas@weg.net - www.weg.net

**5. FIRE-FIGHTING MEASURES**

- Suitable extinguishing methods** : Water in mist form
Carbon dioxide (CO₂)
Foam alcohol resistant
Dry chemical powder
- Extinguishing methods not recommended** : Direct water jet.
- Specific dangers** : The finely dispersed particles form explosive mixtures in air, in the presence of sparks. Burning forms a thick black smoke. Inhalation of dangerous products of decomposition may cause serious damage to health.
- Protective measures of the fire fighting team.** : The personnel involved in firefighting should wear self contained breathing apparatus with positive pressure and full protection clothes.
- Specific methods** : Evacuate and isolate the area. Approach from fire with wind at your back. Fight the fire to a secure distance. Remove the packaging of the product from the fire area if this can be made with safety. Chill sideways with water in form of fog all the closed packaging near the fire. Avoid that the resulting water from fire fighting reaches drains or waterways. Use dikes to contain this water and eliminate it according to environmental regulations.

6. SPILL / LEAK CONTROL PROCEDURES**Personal precautions, protective equipment and emergency procedures**

- For the emergency service staff** : If specialized clothing is needed to combat the leak/spillage, Section 8 should be consulted. All precautions described in the following section must be followed.
- For staff who are not part of the emergency services** : No action should be taken that may generate danger to people without adequate training and qualifications. Use appropriate personal protective equipment - see section 8. Evacuate surrounding areas. Isolate area and keep onlookers away. Do not touch or walk through spilled material. Eliminate all sources of ignition. Avoid breathing vapor or mist. Provide adequate ventilation if possible. Wear appropriate respiratory mask when ventilation is inadequate. In accordance with characteristics of the location and/or area and in relation to the amount of spilled/leaked product, additional emergency measures may be taken under the supervision of a trained

PAUMAR S.A. INDÚSTRIA E COMÉRCIO – GRUPO WEG

professional.

Environmental precautions : Prevent spilled/leaked product from contact with soil, waterways, drains and sewers. Inform the relevant authorities in accordance with current legislation if the product causes environmental damage.

Methods and materials for containment and cleaning

Large spills / leaks : Stop the leak if this can be done safely. Cover up spillage in a tarp to prevent the spread by wind or rain. Use antifascantes tools and explosion-proof equipment properly grounded to collect the product. Place the material collected in dry, clean and properly identified containers. Cap the container loosened so removing them from the spill site. Avoid formation of dust. Remove the packaging from the spill site. If there is product disposal need refer to chapter 13

Small spills / leaks : The collected material can return to the process if you are in favorable conditions. Otherwise should be referred for appropriate disposal.

Dust control : Consult section 13.

7. HANDLING AND STORAGE

Precautions for safe handling

Instructions for safe treatment : Avoid contact with eyes, skin and clothes. Do not handle the product before reading and understanding all safety precautions. Do not re-use packaging. Refer to special instructions before use. Avoid inhalation of the powder. Do not eat, drink or smoke during use.

Precautions for safe handling : Use individual protective equipment. Environments and areas that will be used for electrostatic spraying of powder paints must provide controlled ventilation. Through controlled ventilation it must be ensured that the air in the inhalation scope is healthy from a health point of view (see limits in Section 8). Avoid sources of ignition and dust deposition in the environment. Antistatic clothes and shoes are recommended. Emergency showers and eye wash basins must be installed in locations of use and storage.

Fire protection : Tools that do not produce sparks should be used. Keep away from heat and sources of ignition. Do not smoke. Avoid accumulation of electrostatic charges. All conductive elements of the system, in contact with the product, must be electrically grounded. Only use in well-ventilated locations, to prevent accumulation of powder in explosive concentrations.

PAUMAR S.A. INDÚSTRIA E COMÉRCIO – GRUPO WEG

Rua Dr. Ulisses Guimarães, 918 – 09372-050 – Mauá – SP – Fone: + 55 (11) 4547-6100
 Rodovia Br 280 – Km 50, 6.918 – Bloco A – 89270-000 – Guarimirim – SC – Fone: + 55 (47) 3276-4000

 EMERGÊNCIA: +55 0800 720 8000 – E-mail: tintas@weg.net - www.weg.net

**Storage conditions**

Substances to be avoid : Keep away from oxidising agents, strong acid solutions and strong alkaline solutions.

Storage conditions : The electrical installation must comply with NEC(National Electrical Code) or IEC (International Electrical Commission) standards and/or those of the ABNT (Brazilian Association of Technical Standards). The floor of the storage area must be impermeable, non-combustible.

Appropriate storage conditions : Store the material in covered, dry, well ventilated and identified areas. Store at a temperature below 30°C. Store in a closed container. Keep out of direct sunlight.

Inappropriate storage conditions : Exposed to elevated temperatures, sun and rain. Close to oxidizing agents. Close to food. Close to sources of heat and ignition.

Materials to avoid : Do not store with explosive materials, flammable and/or toxic gases, oxidizing, corrosive substances, or materials that may generate spontaneous combustion.

Secure packaging materials

Recommended packaging materials : Must be stored in plastic bags packed in cardboard boxes.

Packaging materials to be avoided : Glass containers.

8. EXPOSURE CONTROL – PERSONAL PROTECTION

The information in this chapter contain general guidelines. Chapter 1 should be consulted for any information on the recommended use of this product in different scenarios of exposure.

Engineering control measures : Preferably use the product in adequate application cabin. In case it is not possible, provide exhaustion/ventilation enough to keep the concentration of the agents indicated in this section under the limits of tolerance (L.T.), otherwise, use adequate respiratory protection equipment. The engineering controls should keep the concentrations of gas/vapour under the limit of LEL - Lower Explosive Limit (see section 9). Use equipment explosion proof.

Control parameters**Occupational Exposure Limits****PAUMAR S.A. INDÚSTRIA E COMÉRCIO – GRUPO WEG**

| Name | CAS No. | TLV/TWA | TLV/STEL | TLV/TETO | Source |
|--------------------------|-----------|------------------------|----------|----------|--------|
| TRIGLYCIDYL ISOCYANURATE | 2451-62-9 | 0,05 mg/m ³ | | | ACGIH |

*PPM - parts of vapour or gas per million of parts of contaminated air

**MG/m³ - miligrams per cubic meter of air.

Personal protective equipment required

Respiratory protection : If the powder is above the tolerance limits (see engineering control measures, above) a dust mask must be used, suitable for this purpose (P2 particle filter). Occasionally other respiratory protective equipment may be used.

Hand protection : Protective creams can be used to protect exposed skin areas together with latex or nitrile gloves (never used after the exposure has occurred).

Eye protection : Use hermetic goggles to protect against powder spray.

Body and skin protection : Antistatic clothes and shoes are recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES

thinners oxygen as acetone , ethyl acetate , methyl ethyl ketone, among others.

N-octano /water partition coefficient : Not applicable

Auto flammability : 400 °C

Cinematic viscosity (25°C) : Not applicable

Vapor density : Not applicable

Decomposition temperature : Not applicable

10. STABILITY AND REACTIVITY

Reactivity : Presents no reactivity at room temperature and under normal conditions of use.

Chemical stability : Stable at room temperature and under normal conditions of use.

Possibility of dangerous reactions : Presents no reactivity at room temperature and under normal conditions of use.
None when the product is stored, applied and processed correctly. Otherwise, the mixture powder air mixture could ignite.

Need to add additives and inhibitors : Not necessary.

Conditions to avoid : Extreme heat and open flame.

Incompatible materials : Do not store with explosive materials, flammable and/or toxic gases, oxidizing, corrosive substances, or materials that may generate spontaneous combustion.

Dangerous products of decomposition : High temperatures (above 300°C) could result in dangerous products of decomposition, such as carbon dioxide and smoke. Triglycidylisocyanurate can polymerize under the effect of strong heat, exceeding 120°C for more than 12 hours, or under the influence of catalysts. Decompose when burning, producing toxic fumes comprising nitrogen oxides. Thawed rapidly reacts with primary and secondary amines, carboxylic acids and anhydrides, thiols, phenols and alcohols.

Other toxicological observations : Data not available.

Ecotoxicity : Detrimental to the flora.
Detrimental to the fauna
Contaminates the ground water.

13. DIOSPOSAL AND TREATMENT CONSIDERATIONS

Recommended methods for final disposal

Product : Class II Waste - Dispose of in industrial landfill or a facility authorized for recycling in accordance with federal, state or local regulations.

Waste : Class II Waste - Dispose of in industrial landfill or a facility authorized for recycling in accordance with federal, state or local regulations.

Used packaging : Clean packaging should be sent for recycling. Packaging with class II waste should be disposed of in industrial landfill or a facility authorized for recycling in accordance with federal, state or local regulations

14. TRANSPORTATION INFORMATION

National and international regulations

Land : Not classified as a dangerous good under transport regulations.

Shipping : Not classified as a dangerous good under transport regulations.

Air transport : Not classified as a dangerous good under transport regulations.

15. REGULATORY INFORMATION
