

## **WEG Equipamentos Elétricos S.A.**

Av. Prefeito Waldemar Grubba, 3000  
89256-900 - Jaraguá do Sul – SC – Brazil

[www.weg.net](http://www.weg.net)

To whom it may concern,

WEG Equipamentos Elétricos is committed to compliance with the European Regulation 1907/2006 (entered into force on 1 June 2007) concerning the Registration, Evaluation, Authorization and Restriction of Chemicals, otherwise known as REACH.

REACH makes special provision for "articles", where an article is something that has a special shape, surface or design, which determines its function to a greater degree than does its chemical composition (Article 3).

Substances in articles only need to be registered if the total amount placed on the European market is 1 ton/year or more and if the substance is intentionally released during use (Article 7). WEG electric motors, single and three phase, 50 and/or 60Hz, manufactured in Brazil, for operating in safe or hazardous areas, are considered as "articles" and do not contain substances that are intentionally released during use in the amount of 1 ton/year or more in total.

We inform that WEG electric motors, described above, meet the substances on the Authorisation List specified in Annex XIV and the Restrictions list specified in Annex XVII. According to the required in terms of Article 33, we inform that certain WEG electric motors may contain Substances of Very High Concern (SVHC) presented on the Candidate List, as from ECHA decisions, above the threshold of 0,1% weight by weight (w/w) in some parts, listed in Table 1.

- i. The Candidate List of SVHCs can be found here: <http://echa.europa.eu/candidate-list-table>
- ii. Most current query list as updated June 27<sup>th</sup>, 2024.

If further information is required, please feel free to contact us.

Jaraguá do Sul, July 30<sup>th</sup>, 2024.

Table 1 – SVHC presents in some parts of WEG electric motors

All information has been given according to the best of our knowledge and it is based on information made available to us by our suppliers.

Part containing SVHC	Material	Name of SVHC	CAS number
Bearing protection ring	Copper alloy (Bronze)	Lead	7439-92-1
Fan			
Threaded plug	Copper alloy (Brass)		
Cable Gland			
Threaded cap			
Thermal protector			
Bearing cage			

It is important to note that the articles mentioned above are in compliance with RoHS. The following RoHS exemptions apply to the substances listed in Table 1:

- 6(c): Copper alloy containing up to 4 % lead by weight.
