“When you lack machines, you can buy them; if you do not have money, you can borrow it, but you cannot buy or borrow people and people who are motivated by an idea are the basis for success.”

The Human Resources Director is responsible for the management of the Code of Ethics and the cases not included in the code, will be discussed by the Commission of Management of the Code of Ethics.
There will be daily situations not covered by the conducts expected from the employee described in this code. This may cause uncertainty about what must be done. In this case, you might often have heard or read, or you may even think the following way:

- Only this time...
- No one will know...
- Everyone does that...
- It can be concealed...
- This conversation has never happened...
- This does not seem to be a meeting...

In such situations, in order to obtain guidance, read again the first paragraph of the relevant item of the code and check if there are any conflicts. If necessary, answer the following questions:

- Is it legal to do what you are thinking about doing?
- Is this action impartial and honest?
- Will this action be questioned after some time?
- How will I feel later?
- What would that look like on the first page of the newspapers?
- What would I advise my children to do?
- How would I feel if my family, friends and neighbors knew about it?

We must not remain passive when we face those situations of uncertainty. Answering those questions will help to choose the best conduct in those cases or recognize that there is a violation of the code, which must be reported.
